9. What in your view are the most appropriate public policies to address the issues of teen pregnancy, Alaska's high rate of sexually transmitted infections, sexual assault and abuse, and reproductive health access for men and women?

Public policy should focus on access to information and to care. Reproductive health access is critical health care and is vital in reducing unplanned pregnancies, addressing sexually transmitted infections and addressing assault and abuse.

10. How important are reproductive health rights to you personally and why?

I grew up in a time when women finally had the legal rights to bodily autonomy. I will fight for all young women to have the rights I had. WE WON'T GO BACK!
